Preview Text: Web copy skills are in *huge demand... take advantage now*

Hi %%FIRSTNAME%%,

There are so many reasons to take Web Copywriting 2.0!

Here are the 6 biggest reasons:

- 1) Get Results FAST:** Web Copywriting 2.0 is the fastest way to start living the writer's life. I've personally witnessed AWAI members who have learned this skill go from no clients to paid assignment in as little as 72 hours.
- 2) Huge Demand:** The demand for web copy has exploded beyond anything we could have imagined. eMarketer reports that companies around the globe spent \$335 billion in online advertising in 2020. There are over 1.5 billion websites online. And most of them need copywriting improvements!
- 3) Only 2 or 3 clients will fill your work calendar:** Each client will have multiple projects for you. You won't be spending your time always on the hunt for new clients. Pick the clients you LIKE to work with, and they will keep you busy!
- 4) Variety:** you don't have to be married to just one niche or topic. There are upwards of 40 different types of web copywriting....e-newsletters, blogs, product pages, case studies, etc. etc. Specialize in one type of copy over several industries, or handle all of the copy types for just one client or two. YOU decide. Ultimate flexibility, maximum benefit for you.
